

Cedar Release Approval Notes

Release decision

This document is entirely fictional demonstration data.

The Cedar limited preview starts on 16 November 2026.

The preview has an enrollment cap of 200 projects.

Enrollment is invite-only.

Approval boundary

No general-availability date has been approved.

Preview release depends on the completed release gates.

This source does not promise production availability.

Cedar Release Approval Notes - Readiness

Restore objectives

The restore drill targets 30 minutes recovery time.

The recovery-point target is 5 minutes.

These are drill targets, not customer service-level guarantees.

Evidence and access gates

Published knowledge must cite current original-source evidence.

Permission revocation requires verified native denial.

Pending permission synchronization blocks affected local reads.

Missing provider usage must be labeled unavailable, not zero.
